Welcome to a company with the expertise to solve your most challenging technical issues, the service to support your entire operation and the reputation to ensure you never regret your decision.

Trusted.

Based in Halifax, Nova Scotia, VistaCare Communications is a leading technology solutions provider for a wide range of industries and organizations. With maximum efficiency and minimum disruption, we design, build, install and service all aspects of communications systems.

Solve

Our team prides itself on being a true partner throughout every stage of a project. VistaCare Communications has strategic alliances with world class health-care solution providers to meet the communication requirements for long term health care facilities. Whether you are building a new facility or looking to improve existing infrastructure and leverage new technologies, we have the expertise and dedicated team to meet your communication requirements.

Build

Because of our breadth of experience we are confident that we can tackle the most demanding projects, and develop a custom solution that exceeds your expectations. While some of the technology we use is commonly available, our deep understanding of its practical applications is not. With some of the biggest and most complex facilities in Atlantic Canada as past clients, you can be confident that we can tackle your project, and make it an easy, efficient and profitable operation.

Support

While our roots are firmly based in Atlantic Canada, VistaCare is trusted across Canada by some of the largest telecommunications companies around. When they need to get the job done properly, on time, and with no mistakes, they know to trust VistaCare. That's the reputation we put on the line with each job. Because just as we hope people tell the stories about our successes, we work twice as hard to ensure no one can ever talk about a failure.

A leader in Atlantic Canada, trusted by our clients, our suppliers and our staff.

Structured Cabling

With a wider variety of communications components available than ever before - such as phone, internet and security networks - customers have an increasing need for structured wiring and systems integration. It's why our Structured Cabling division offers an extensive range of services, including:

- Cat5e, Cat6, Cat6e, gigabit
- Fibre Cabling: Single, Multi-mode
- Coaxial Cabling
- Office Cabling
- Building to building cabling
- Voice and data cabling
- Gigabit backbone cabling

Security Solutions

With technology becoming more sophisticated and powerful, you need a partner like VistaCare, a premier provider of security solutions to design, implement, project manage and support all your security needs. Handling seamless integration with existing systems, complete refits or totally new solutions, VistaCare offers:

- Closed Circuit Television Systems
- Network IP Camera's
- Intrusion Alarms
- Door Access Systems
- Commercial Security Monitoring

Facility Solutions

At VistaCare we recognize that Health Care and other public facilities are unique environments with special communication needs. We offer a wide variety of products specially designed with these sectors in mind, including:

- Nurse Call - Dukane (GE) Dealer
- Paging
- Infant Security
- Wireless Communication
- Management Reporting
- Patient Elopement
- Asset Tracking
- Mass Notifications
- Intercom/Public Address
- CATV

"VistaCare exceeded our expectations. Their project managers worked very hard on site, and it was not uncommon to see the trucks parked out front late at night and in the early morning. They did what it took to get the job done. The end result was an integrated solution that we depend on to run our day to day business - voice/data, video surveillance, nurse call, patient wandering, public address, and intercom. We continue to work with VistaCare, it is a relationship that we rely on."

Jay MacIntyre
IT Director
Northwood Care

Our solutions are field tested and proven.

Our reputation for excellence is the reason we are a preferred partner to three of the largest telecommunications companies in Atlantic Canada.
